AquaBrew

Smart Kettle SK-200

User Manual

Thank you for choosing the AquaBrew Smart Kettle. Please read this manual carefully before first use and keep it for future reference.

Safety instructions

- Only connect the kettle to an earthed socket that matches the rated voltage.
- Do not immerse the kettle, power base or cord in water.
- Never operate the kettle when the water level is below MIN or above MAX.
- Keep the appliance out of reach of children under 8 years.

> **WARNING**
> Hot surfaces and steam can cause burns. Do not open the lid while the water is boiling.

Product overview

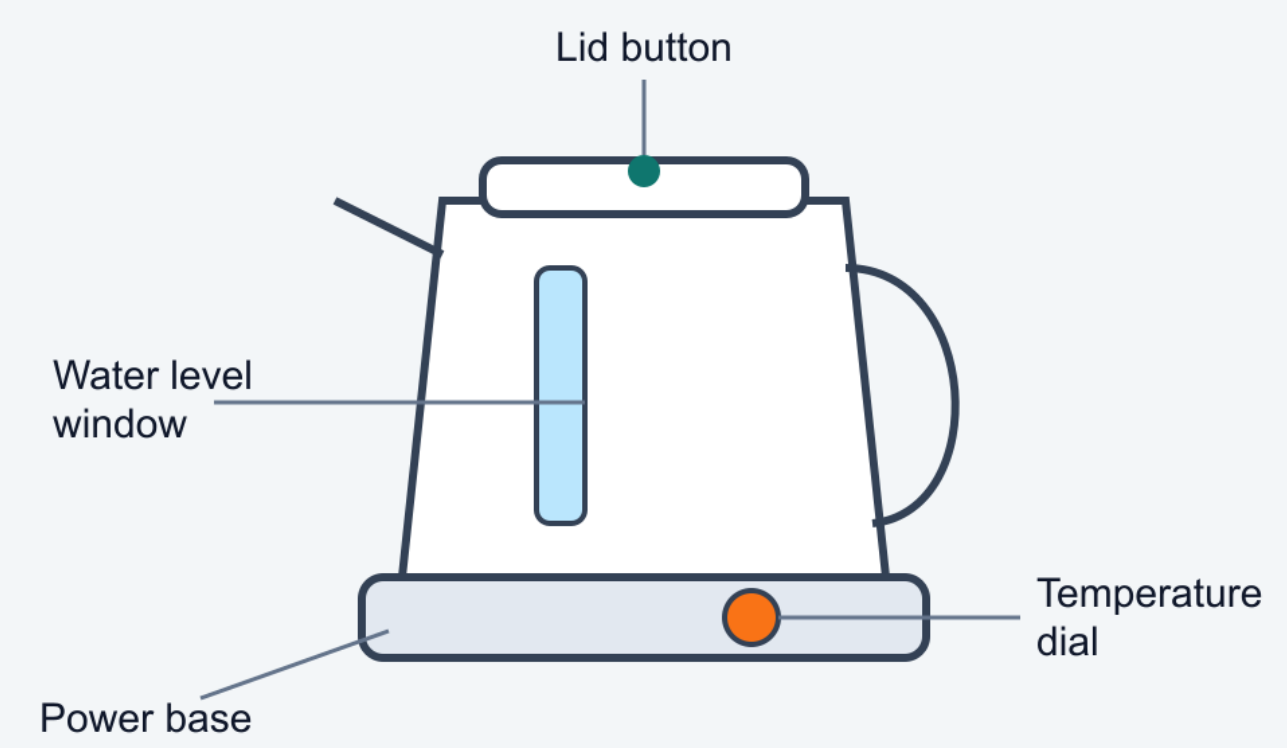

Figure 1. Main parts of the kettle

Getting started

1. Fill the kettle with fresh water between the MIN and MAX marks.
2. Place the kettle on the power base and plug in the cord.
3. Turn the temperature dial to the desired setting: 70, 85 or 100 °C.
4. Press the switch. The indicator lights up and turns off when the water is ready.

Technical specifications

Rated voltage	220–240 V ~ 50/60 Hz
Rated power	1800 W
Capacity	1.7 L
Net weight	1.2 kg

Cleaning and care

Unplug the kettle and let it cool down before cleaning. Wipe the outside with a damp cloth. To remove limescale, boil a mixture of water and white vinegar, then rinse twice with clean water.

Tip: descale every four weeks in hard-water areas.
